### **DANCE VIDEO & KARAOKE**

Who has not dreamed of singing like Elvis or Madonna?

Let Jet-7 Productions organize a combined dance video and karaoke night and you will dream no more!

You will enjoy singing before an audience while using a real microphone. Select popular, folk or cheesy music and dare your friends to sing.

With a selection of over 8000 titles on DVD and more than 2000 karaoke songs, you will have no shortage of choices.

Two entertainers/VJ hosts will keep you dancing and singing throughout the evening.

We provide everything required for this type of event, including equipment to project the lyrics of the chosen songs on a giant (7.5' x 10') screen.

A song book is provided in which you simply inscribe the name of each participant, the number of their table and the number of the musical selection.

If necessary, the VJ will sing along with the participant and once the performances are concluded, he will keep you dancing the night long.
