ROOM DÉCOR

Decorating a room yourself for a wedding reception, or any occasion, requires a great deal of planning. You need to prepare a list of items required: balloons, streamers, flowers, table center pieces, chair decoration, etc. Depending upon the theme selected, whether it is the sea, film, country, fairy tale or lounge, you must accessorize accordingly. This process takes time and effort.

Do you wish to impress and create a fascinating atmosphere in keeping with your taste and personality for your wedding or other event? Whether a Church, reception hall, or other locale, we will create an ambience exclusively for you.

We have a wide selection of center pieces adorned with balloons, flowers and ribbons; vases; magnificent crystal chandeliers; arched entries and plastic columns decorated with balloons and flowers; bouquets; streamers for the dance floor; and curtains to create a lounge effect.

A play of light is utilized to complete the décor and will add to the delight of your guests. Jet-7 Productions will satisfy all your decorating needs right down to the minutest detail.

We are certified in the art of decoration. A visit to our website will convince you!
